## NEW AVENUES BECKON YOU

[www.championsyachtclub.com](http://www.championsyachtclub.com)

1800-11-2582

We, at Champions Yacht Club (CYC), believe in delivering an experience that's unique, customized, luxurious, and high on quality and satisfaction. We specialize in providing luxury boating and yachting services in Goa and Vijayawada with the help of a large fleet of Catamarans, Boats, Cruisers, Yachts and a wide spectrum of water sport activities, which open up new horizons for fun sports.

Founded by Subhakar Rao Surapaneni in 2012, today Champions Yacht Club has become a global leader in super luxury sea charter industry. It is a part of the Champion Group and is headquartered in Goa. Since its inception, Champions Yacht Club has been enjoying an unrivalled reputation from clients all over the world.

## VISION

Magnificent marine vessels, high quality equipment and cutting edge technology – we strive to bring these elements to the Indian sea charter industry, and we are glad to contribute to the ultra-urban lifestyle of this country.

## MISSION

Our mission is to put lives in a 'live mode'. We are committed to provide an adrenaline enriching experience with high standards of quality and customer satisfaction. We take great pleasure in initiating first timers into these fun adventures.

*Be it Yacht sales, Yacht charter  
Yacht brokerage or Yacht management  
We have mastered them all*

## THE SCOPE OF WATER SPORTS

In recent times, Nautical Tourism & Recreation have garnered enough attention from people across the globe, making it the most rapidly growing activity in the world. It thus provides substantial economic benefits that relate directly to the increasingly competitive global economy.

Nautical Tourism & Recreation present significant opportunities to coastal regions to access navigational crafts, recreational rides, luxury vacations and water sports that attract generations of all ages from the perspective of leisure, sports, luxury as well as employment.

## A CHAMPION WATER PARK FOR YOUR CITY

We have utilized our years of experience and the expertise gained internationally to bring world-class water parks to India. Our water parks comprise of Wake Parks, Inflatable Parks, Round Leisure boats, Jet Flyers, Parasailing, etc.

Along with satiating the thirst for adventure, these water parks also cater to people across all ages, be it children, ladies or the old ones. The concept of inflatable water park and wakeboarding parks has gained significant traction across the world. And it's time to bring this concept to your city and transform your city into a tourist hub.

*The main attraction of  
The water park is  
its uniqueness.*

## WORLD-CLASS WAKEBOARDING, CHAMPIONS STYLE

Wakeboarding, the world's fastest growing watersport, is performed using a cable which pulls one over the surface of the lake with a feel similar to surfing or snowboarding but on water. The wakeboard is usually towed behind a motorboat or towed by closed-course cable systems, typically at speeds of 30–40 km/h, depending on the board size, weight, type of tricks, and comfort.

Cable Wakeboarding is one of the most progressive extreme sports and has become quite a popular sport, garnering international attention. It has recently been short listed alongside seven other sports for the Olympic Games in 2020.

Apt for backwaters or riverbed, a wakeboarding park is the perfect instrument for attracting national and international tourists. Whether you're an experienced Watersports operator or new to operations, the Champions team will help you to master operations of this exciting sport. Champions Yacht Club is committed to building and operating the world's best cable wakeboarding parks and strives to grow watersports by bringing wakeboarding to the masses.

*A new-age sport needs  
A new-age  
approach.*

## CHAMPIONS INFLATABLE AQUA WATER PARK

As the name suggests, an Inflatable Water Park is built or created using light material that can be inflated with air or any gas and can stay afloat in water. The Inflatable Water Park—resembling a giant floating playground—will be a series of inflatable slides, runways, jumping pillows and bouncers all connected together and floating in a large, clean and refreshing lake, backwater or any waterfront. It will feature swings, ramps, jumps, ladders, trampoline, slide, wiggle bridges, and much more. There will be a great variety of different shapes, sizes and functions, making the activity exciting and entertaining for everyone.

Whether you have a fully formed concept you want us to bring to life or you don't have a brief at all, our in-house design team will work collaboratively with you to turn around even the most complex of projects. We put to use commercial grade construction, tough international safety standards and excellent support to give visitors and tourists trouble-free entertainment.

Depending upon the area of waterfront and adjoining land, the waterpark can be customized. The Inflatable Water Park instantly gives your location a sensation of having a full-fledged waterpark, turning it into an iconic landmark.

*Simple assembly, hassle-free operations &  
High entertainment quotient  
ensure revenue growth.*

# *Stop dreaming Start flying*

## Flyboarding

Meet the new watersport that's taking the world by storm – Flyboarding! This action sport, which combines the most extreme elements of your favorite water sports, is unbelievably exhilarating and pushes fun to the absolute limit. Flyboarding is not tough at all and neither does it require crazy sporting skills or fitness levels which is why it is the perfect experience for everyone

## Parasailing

Parasailing gives one the opportunity to soar high and experience the real adrenaline rush, while enjoying the awe inspiring aerial view of the waters. Parasailing has become the most popular water sport activity as it combines the thrills of acceleration and altitude with scenic views.

## Paramotoring

Through Paramotoring, we enable people of all age groups to enjoy the freedom of powered paragliding. It's a powered aircraft that can take off in a few meters, fly for 3-4 hrs and allows people to soak in the pleasure of flying while gliding. The ability to fly both low and slow safely, the 'open' feel and minimal equipment requirement make Paramotoring a big attraction among people.

*Other Champion  
Water Sports Options*

## CARING FOR THE ECOSYTEM

On the land adjacent to the water park, we will introduce water pumping & treatment system and water filtration plants to reduce contaminants from water. A special sewage treatment system to collect waste water will also be installed. Our restrooms will be equipped with sanitary wares made of eco-friendly resources.

The use of renewable energy resources such as solar energy will be employed to satisfying partial or complete need of energy.

We minimize waste as much as possible by using less polluting materials and implementing processes that generate less waste. We also believe in re-using waste material in creative ways such as using waste oil as fuel, wine bottles as glasses or flower pots, etc.

Food going waste will be used by the locales to feed their poultry, fishes and other animals. Unlike plastic, we will use eco-friendly packaging that is made of recycled items and are 100% bio-degradable.
